MR gave an update.

- MR advised that following emails sent to members in relation to a plan to reduce Trustees from 12 to 5 some of whom may not be committee members. MR outlined the reason for change. Draft documents are in progress.
- A lively debate followed from various members on the floor as to the pros and cons of this. MR advised that following the feedback received so far, and the feedback from the floor, there would be an additional 2 weeks for people to comment and respond to him. MR will then consolidate feedback, update documentation and update committee for further debate. Once this completed, the documents and rationale etc would be circulated to all members with a view to then voting on it at a suitable meeting. MR advised he would do this as soon as possible, but it had to be correct and could take some time, but no changes until vote completed.
