

Dispatcher Update June 26

At log in Dispatcher requires an update to the add-in before it can be used. The following guide gives you an overview of how to complete this process.

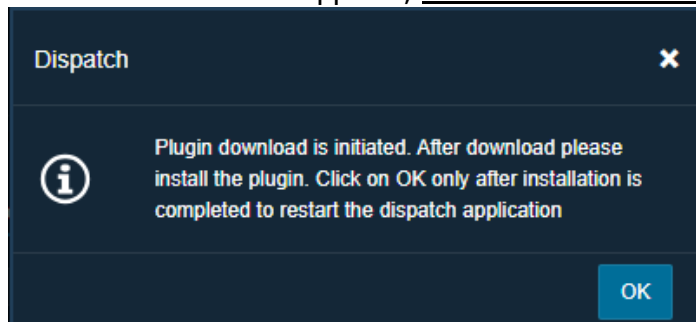

1. Log in as normal to Dispatcher:

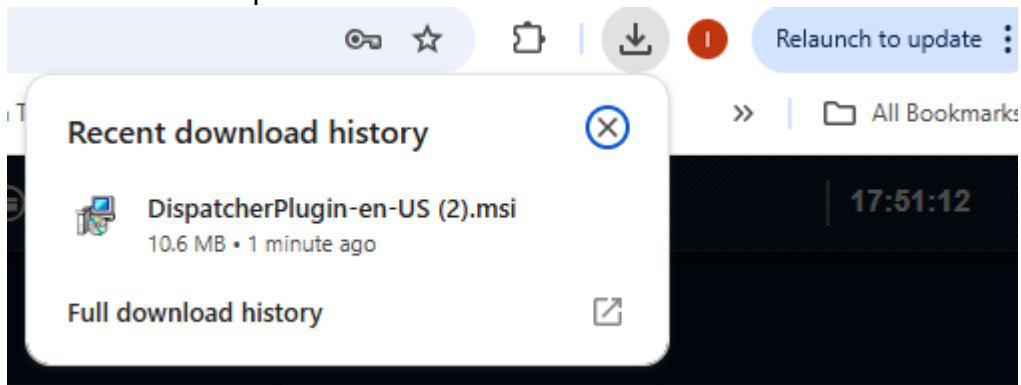

2. A pop-up will appear asking you to upgrade the plug in, click on Yes:

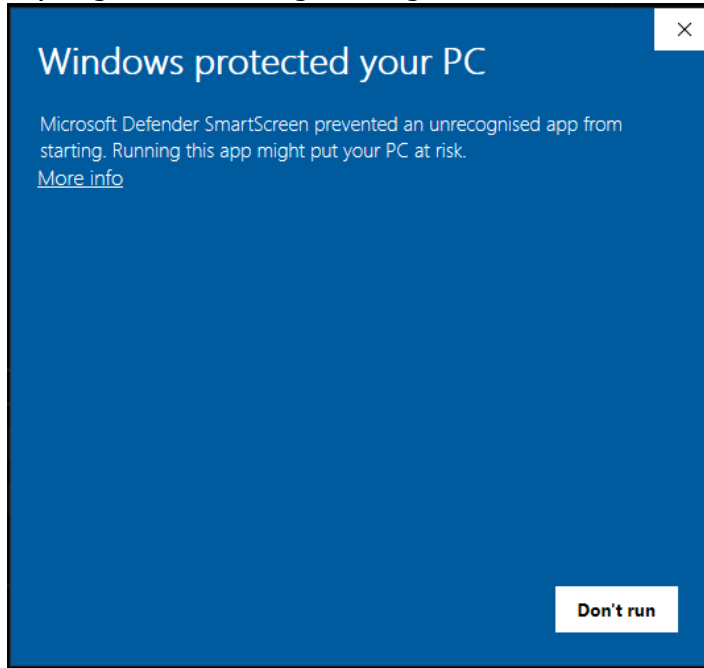

3. When the next screen appears, **DO NOT Click OK at this point**

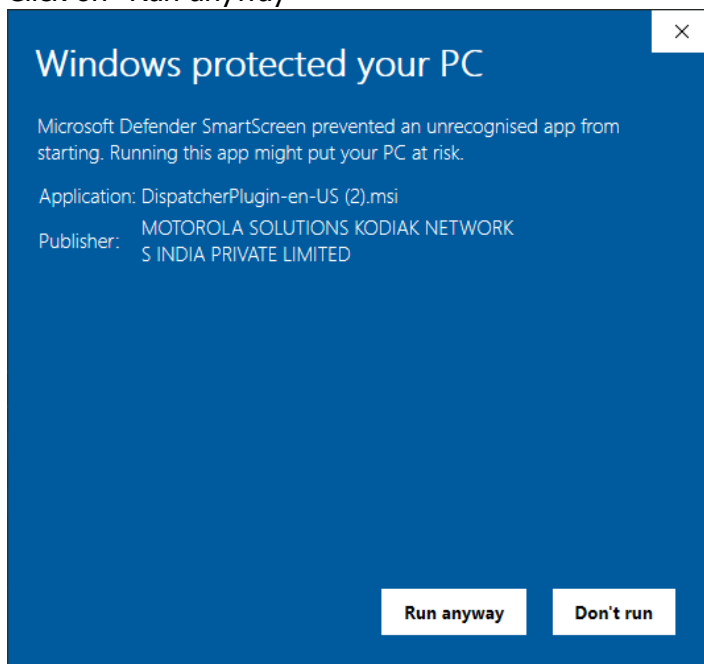

4. Wait for the add-in to download, then click on the download symbol in the top right of your screen to run the add-in update:

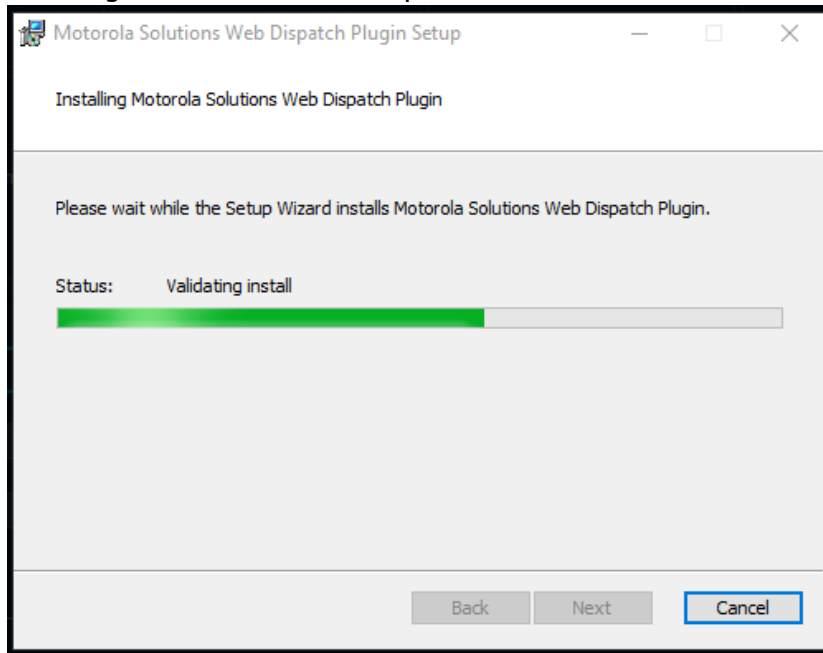

5. If you get the following warning from Windows Defender, click on "More Info":

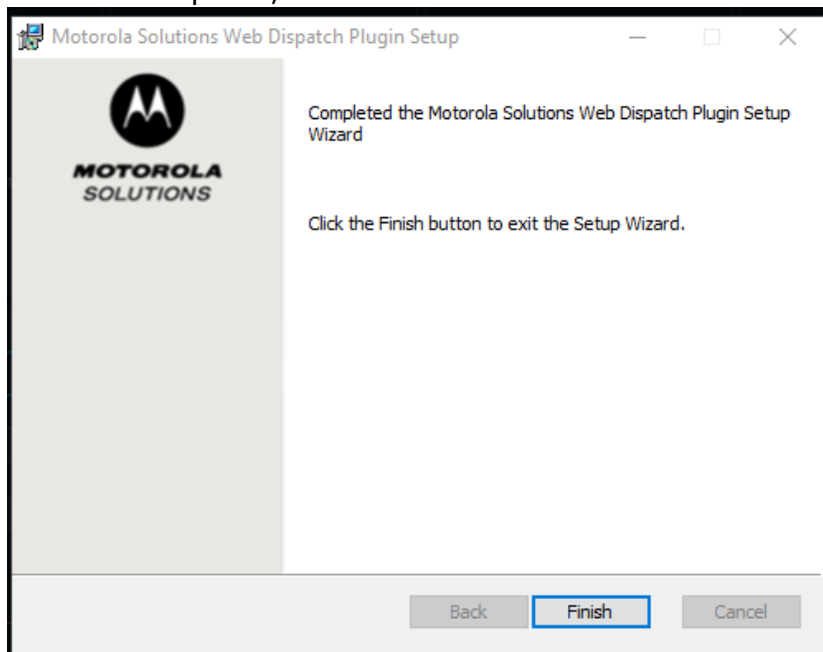

6. Click on "Run anyway"

7. The Plug-in will now run and update:

8. Once it is completed, click on the Finish button

9. You will now be shown this screen where you can click on OK and Dispatcher will launch as normal:
