

Dear Chair,

We are delighted to be able to offer our support and services to members and groups of NABB.

Our attached commitment summary shows all of the services we can offer to your volunteers.

We've also included a keyring for each member which will be sent through to you. Our dedicated number is on each keyring along with a QR code which can be scanned to take your volunteers straight to our website.

We thank you for everything that you do and wish you a safe ride!

# Legal Support You Can Count On

As one of the senior team at Sorrymate.com, I'm delighted to be given the opportunity to support your volunteers. As a business providing national legal services for bikers, I am extremely proud of the amazing service our team can offer, and am delighted to be able to offer this support and assistance to your riders too, who provide an invaluable service day in day out to the NHS.

As a practice, our unique service offers much more to bikers than other legal providers.

We support bikers from the moment they are injured and contact us about their claim, right through to the date of settlement. We maintain regular contact throughout the process, and find that many of the bikers we deal with, often become friends that we meet at events up and down the country, which as you would imagine, is a great testament to the service we have provided.

We're not just solicitors, we are bikers too.

Thank you for partnering with Sorrymate.com for your legal support.

# Our Commitment

Sorrymate.com would be proud to offer support to all members of NABB.

Blood Bikers ride in all weather, and always need to make progress through the thickest traffic to deliver a life-saving emergency service to the NHS. This makes the chances of your riders becoming victim to negligence from other road users greater than an average rider.

Sorrymate.com is a recognised name in the motorcycling world whether this is from sponsorships with up-and-coming riders in BSB or Superstock, sponsorship of the 1946 Marshalls Association or fundraising activities with various Air Ambulances up and down the country.

We are specialist motorcycle accident solicitors. The brand has been in existence for over fifteen years and the staff have a huge experience revolving around law, claims and most importantly we are Bikers.

Sorrymate.com outperforms not only other so called specialist legal firms, but also legal firms linked to insurers; over 25% of our new clients come to us as a transfer from other big-name solicitors.

Our testimonials and Trustpilot reviews give an unbiased opinion of our clients' views and we work hard to maintain this ethos of bikers helping bikers.

Sorrymate.com have an entirely person-centred approach to rider welfare. Every aspect of recovery is catered for, physical and mental health, family support if needed, and independent real-world valuations for your bike and kit.

All NABB members will have a direct Freephone number to contact us on so we can identify a Blood Biker requiring priority assistance upon receiving the call.
