

Procedure:	Northumbria Blood Bikes Rota Definition: Newcastle Trust GP Scheduled Run		
Owner:	Rota Manager	Author:	Ronnie Paton
Approved:	15th April 2018	By:	Executive Committee
Doc Ref	ROTA020	Version	1.5

A. Why do we need this Procedure

This document sets out the requirements for the Newcastle Trust Scheduled GP Run

B. Who is Responsible for this Procedure

The Rota Manager of the group is responsible for the maintenance of this procedure.
The Executive Committee is responsible for approving this procedure.

Any person operating on Newcastle Trust Scheduled GP Run is bound by the rules laid out in this procedure.

C. When will this Procedure be reviewed

The procedure will be reviewed a maximum of one year following its approval.

D. How will changes be notified

The latest version of the policy will be made available via the members' library on the group website. New versions will be announced via email to all qualified riders, drivers, shift coordinators and the executive committee.

1. Aim of Run

- 1.1. This run operates specifically to ensure that samples and specimens are collected from Newcastle trust GP's and delivered to Freeman Hospital within the time boundaries given to us.

2. Operational Information

- 2.1. This run operates 7 days a week, including Bank Holidays
- 2.2. The shift responsible for completing each run is below:
 - 2.2.1. The weekend day run operates as part of the *ROTA014 – Weekend Daytime Scheduled Shift*.
 - 2.2.2. The Sunday "Run 2" is to be completed by any available duty vehicle.
 - 2.2.3. The nightly run operates as part of the *ROTA013 – Evening Support Shift*.
 - 2.2.4. Each public holiday will be different, the Rota Manager or Hospital Liaison Officer will update the member completing this run prior to the start of the shift.
 - 2.2.5. If no Support shift is booked, then the Rota Team, will task the Newcastle Trust GP run to the vehicle nearest the RVI, this tasking should be done as early as possible to ensure collection timings are maintained.
- 2.3. The rider/driver must collect their vehicle in good time to be able to arrive at the first collection location, at the time started in the route card, ensuring that the sample bag is collected from the RVI before commencing the run.
- 2.4. Due to the time constraints, the receipt book should be pre-populated with as much of the details as possible for that run.

3. Duties

- 3.1. The run commences with rider/driver collecting the sample bag from the RVI Leazes wing reception, giving enough time to arrive at the first pickup location at the time stated on the route card for that day. Then doing multiple collections from Newcastle Trust GP Surgeries as per weekly route card, a copy of the route card will be available in every vehicle, and a copy can be found below.
- 3.2. All Sat Navs in and on the vehicles will have the destinations already input into them, and will be in a separate folder named "GP Surgery"
- 3.3. This run has some time constraints; therefore riders/drivers are expected to start promptly and arrive at first destination on time.
- 3.4. Up to date details of the collection points of the Newcastle Trust GP run can be found below. As the pickup locations differ from day to day, it's important that riders and drivers check the relevant documents that will be placed in folders in all the vehicles.
- 3.5. Upon arrival at the first few locations, if only a few samples are collected, they may be locked in the side panniers and be transferred into the box when a sufficient amount has been collected.

- 3.6.** Once samples have been placed in the box, the NBB covers must be placed over the box prior to strapping it on the bike.
- 3.7.** At no point in time should samples be left unattended in the box on the back of the bike.
- 3.8.** Once all samples have been collected, they should be delivered to reception at the Freeman Hospital.
- 3.9.** Once the Newcastle trust run has been completed, you are then available for jobs as allocated by the controller.

4. Weekday Route Card

- 4.1.** The Newcastle trust medical centre run operates 7 days a week, excluding Public Holidays

Mondays
